

DNREC – Surface Water Discharges DDA- Nutrient Management Program

LEGAL NOTICE

General Concentrated Animal Feeding Operation Permits

The Department of Natural Resources and Environmental Control (DNREC), Division of Water Resources, Surface Water Discharges Section and the Department of Agriculture, Nutrient Management Program, hereby give notice that the following farms have applied for coverage under National Pollutant Discharge Elimination System (NPDES) General Concentrated Animal Feeding Operation (CAFO) Permit Number DE 5000N/11, to operate a Large, Medium, or Designated Poultry CAFO without land application of manure under Section 9.5 of the DNREC's Regulations Governing the Control of Water Pollution.

Large CAFO's are characterized as having equal to or greater than 125,000 chickens (C), 82,000 laying hens (L), or 55,000 turkeys (T). Medium CAFO's are characterized as having 37,500-124,999 chickens, 25,000-81,999 laying hens, or 16,500-54,999 turkeys. Designated CAFO's are determined by the department and can be any size. Chicken manure is not land applied by these farms and is exported off the farm. Manure is stored and mortalities are handled in a manner to prevent contamination of waters of the state. All farms have Animal Waste Management Plans that meet the criteria of the CAFO Regulations. Manure, litter, and/or process wastewater discharges are prohibited from the production area. There are currently no known existing production area discharge points at these farms. Any discharges of manure, litter, and/or process wastewater that may occur would be new discharges and are required to be reported to the departments.

Farm Name and Address	Owner/Operator Name and Address	Animal Type	Animal Number	Watershed
Crisco Farm 19622 Crisco Lane Bridgeville, DE 19933	Stephaine D. Crisco 19622 Crisco Lane Bridgeville, DE 19933	C	72,000	Nanticoke River

On the basis of a preliminary staff review and application of lawful standards and regulations, DNREC proposes to issue general CAFO permit coverage to the above referenced farms, subject to certain effluent limitations and conditions.

The Secretary of DNREC intends to issue General NPDES CAFO permit coverage under Section 9.5 of the Department's Regulations Governing the Control of Water Pollution for the above farms. Section 9.5 of the Department's Regulations Governing the Control of Water Pollution allows for such activity pending public notice.

Copies of the Notice of Intent, Animal Waste Management Plan, and permit are available by contacting:

Nutrient Management Program
Delaware Department of Agriculture
2320 South DuPont Highway
Dover, DE 19901
(302)-698-4500
Dda.foia@state.de.us

A public hearing will not be held on any of the above farms unless the Secretary of DNREC receives a meritorious request by 4:30 p.m. **Thursday, October 12, 2017.** A request for a hearing shall list the specific farm, be in writing and shall state the nature of the issues to be raised at the hearing. It must also show a familiarity with the application and a reasoned statement of the activity's probable impact.
